# Notes to the condensed consolidated interim financial statements

## 1 Organisation

Kuehne + Nagel International AG (the Company) is incorporated in Schindellegi (Feusisberg), Switzerland. The Company is one of the world's leading logistics providers. Its strong market position lies in the sea logistics, air logistics, road logistics and contract logistics businesses.

The condensed consolidated interim financial statements of the Company for the three months ended March 31, 2022, comprise the Company, its subsidiaries (the Group) and its interests in joint ventures and associates.

The Group voluntarily presents a balance sheet as of March 31, 2021.

## 2. Statement of compliance

The unaudited condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended December 31, 2021.

## 3. Basis of preparation

The condensed consolidated interim financial statements are presented in Swiss Francs (CHF) million. They are prepared on a historical cost basis except for certain financial instruments, which are stated at fair value. Non-current assets and disposal groups held for sale are stated at the lower of the carrying amount and fair value less costs to sell.

The preparation of the condensed consolidated interim financial statements in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting, as issued by the International Accounting Standards Board (IASB), requires the management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The actual result may differ from these estimates. Judgements made by the management in the application of International Financial Reporting Standards that have a significant effect on the condensed consolidated interim financial statements and estimates with a significant risk of material adjustment in the next period were the same as those applied to the consolidated financial statements for the year ended December 31, 2021.

#### 4. Accounting policies

The accounting policies applied in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended December 31, 2021. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Other new, revised and amended standards, amendments, improvements and interpretations apply for the first time in 2022, but do not have a material impact on the condensed consolidated interim financial statements of the Group.

#### 5. Recent developments

##### Russian invasion of Ukraine

On February 24, 2022, Russian forces started the invasion of Ukraine. In response, multiple jurisdictions have imposed economic sanctions against Russia and Belarus.

Kuehne+Nagel is closely monitoring the situation and evaluating the consequences for its employees and its customers. Crisis response teams permanently review the situation and are in close contact with employees and business partners. The safety and wellbeing of the employees are a top priority and the Group continues to support affected employees and their families as and when needed. In Ukraine, all Kuehne+Nagel operations are suspended until further notice. Operations will be resumed once the local situation has normalised.

On March 11, 2022, Kuehne+Nagel announced that it pledges emergency aid to Ukraine for CHF 10 million. This will be provided in the form of free logistics services to leading global aid and relief organisations for the transport and temporary storage of humanitarian goods to Ukraine as well as Poland, Slovakia, Hungary and Romania until summer 2022.

Most carriers (air, sea, road and rail) have stopped their services to, from and through the Russian Federation. Equally, Kuehne+Nagel has suspended all shipments to, from and through the Russian Federation until further notice, except for pharma, healthcare and humanitarian supplies. In addition, the care for the employees is a top priority and competent crisis teams monitor and assess the situation closely.

Overall, it is too early to conclude on the effects for the Group, or on the global supply chain for customers. The direct impact on the Group is estimated to be minor.

##### COVID-19 pandemic

On March 11, 2020, the World Health Organisation declared the COVID-19 outbreak to be a pandemic due to its rapid, worldwide spread. Various governments introduced and continue to apply containment measures in order to reduce the number of new infections.

Since then, the Kuehne+Nagel Group put in place specific precautionary measures to provide safe working environments for its employees and to maintain business continuity. Dedicated teams at global, regional and local levels continuously monitored the situation and continue to do so. The Group adapts the measures based on the most recent guidance of governments and other relevant authorities.

Beginning 2021, the Group observed and was exposed to disruptive supply chain events related to ship, port and trucking operations as well as container availability. Significant capacity was absorbed by large numbers of ships waiting in front of ports for their port calls. The resultant delays in port handling and inland container movements have created substantial disruptions and congestions in global supply chains. This situation, and the scarcity of airfreight capacity, led to a steep increase in freight rates.

##### Impact on the condensed consolidated interim financial statements

For these condensed consolidated interim financial statements, the impact of the COVID-19 pandemic and containment measures taken by various governments as well as the implications of the war and the related events were considered. Assessments for the future are based on various scenarios, taking into account the prevailing situation of uncertainty. In this context, making forecasts remains especially difficult.

The Group continued to assess the expected credit loss by applying updated credit ratings and probabilities of default. The impairment allowance provision in per cent of trade receivables and contract assets stands at 2.09 per cent as of March 31, 2022, compared to 1.91 per cent as of December 31, 2021.

The Group has analysed whether any triggering events could be identified, that would indicate an impairment of its assets. As of March 31, 2022, no material impairment losses needed to be recognised.

## 6. Foreign exchange rates

Conversion rates of major foreign currencies are applied as follows:

## 9. Acquisitions

The Group did not acquire any material business in the first three months of 2022 and 2021.

## 10. Divestments

### 2022 Divestments

The Group did not divest any business in the first three months of 2022.

### 2021 Divestments

On March 8, 2020, Kuehne+Nagel entered into a binding agreement to sell a major part of its contract logistics portfolio in the United Kingdom to XPO Logistics, Inc. (NYSE: XPO). The scope of the transaction includes the drinks logistics, food services and retail & technology businesses, whereby the pharma & health-care businesses are retained. In the first three months 2020, the operations contributed CHF 164 million of net turnover, CHF 146 million of gross profit and a loss for the period of CHF 5 million to the Group's income statement.

On December 31, 2020, the assets and liabilities related to this divestment were classified as assets held for sale (CHF 434 million) and liabilities directly associated with the assets held for sale (CHF 419 million) and were presented separately in the Group's balance sheet. The transaction closed on January 1, 2021 resulting in the derecognition of the assets and liabilities associated with the disposal group. There was no material impact on the income statement from the transaction in 2021.

## 11. Segment reporting

### a) Reportable segments

The Group provides integrated logistics solutions across customers' supply chains using its global logistics network.

The four reportable segments, **Sea Logistics**, **Air Logistics**, **Road Logistics** and **Contract Logistics**, reflect the internal management and reporting structure to the Management Board (the chief operating decision maker, CODM) and are managed through specific organisational structures. The CODM reviews internal management reports on a monthly basis. Each segment is a distinguishable business unit and is engaged in providing and selling discrete products and services.

The discrete distinction between Sea Logistics, Air Logistics and Road Logistics is the usage of the same transportation mode within a reportable segment. In addition to common business processes and management routines, a single main transportation mode is used within a reportable segment. For the reportable segment Contract Logistics the services performed are related to customer contracts for warehouse and distribution activities, whereby services performed are storage, handling and distribution.

Pricing between segments is determined on an arm's length basis. The accounting policies of the reportable segments are the same as applied in the consolidated financial statements.

Information about the reportable segments is presented on the next pages. Segment performance is based on EBIT as reviewed by the CODM. The column "eliminations" shows the eliminations of turnover and expenses between segments. All operating expenses are allocated to the segments and included in the EBIT.

### b) Geographical information

The Group operates on a worldwide basis in the following geographical areas: **EMEA**, **Americas** and **Asia-Pacific**. All products and services are provided in each of these geographical regions. The regional revenue is based on the geographical location of the customers invoiced, and regional assets are based on the geographical location of assets.

### c) Major customers

There is no single customer who represents more than ten per cent of the Group's total revenue.
