Kuehne+Nagel delivers 1.4 million tons of wind turbine equipment for NEOM project in Saudi Arabia

- **Transport of 190 wind turbine generators and 67 tower sets on behalf of Envision Energy, a leading renewable energy system company**
- **Equipment for the world's largest hydrogen production plant located in Saudi Arabia's special economic zone, NEOM**
- **Proof of Kuehne+Nagel's Roadmap 2026 with its focus on renewable energy**

Schindellegi, August 29, 2023 – Kuehne+Nagel has secured a contract from the leading global wind turbine supplier Envision Energy to transport 190 wind turbine generators (WTG) and 67 tower sets to Saudi Arabia's new special economic zone, NEOM.

Expected to be completed in 2025, this major project involves the specialised transport of 1.4 million freight tons of WTG. A team of over 100 project logistics professionals, vessel chartering experts, transport engineers, drivers and riggers, will work together to ensure the success of the operation. A dedicated office has been established in the city of Tabuk, Saudi Arabia, to coordinate teams at NEOM's port and the wind farm site.

NEOM is a special economic zone in the northwest of Saudi Arabia. NEOM means 'new future' and is intended to become a model for sustainable urban living powered entirely by renewable energy. One of the best-known NEOM projects is "The Line", the carbon-neutral linear smart city currently under construction on the Red Sea.

When completed, the NEOM wind farm will generate 1.67 GW of renewable energy to power the plant of the NEOM Green Hydrogen Company, the world's largest facility for producing hydrogen on a large scale.

Stefan Paul, CEO of Kuehne+Nagel International AG, said: "This is a major milestone in Kuehne+Nagel's Roadmap 2026, our new strategy that we presented in March this year. We see great potential in providing solutions for renewable energy customers and the NEOM project is a

testament to our logistics expertise in this high-growth field that supports the global energy transition.”

Globally, Kuehne+Nagel has successfully provided project logistics solutions to a wide range of original equipment manufacturers, encompassing specialised project management and tailor-made supply chain services. Kuehne+Nagel’s expertise extends to origin and destination/site services, innovative freight solutions, maintenance, repair and operations, distribution and warehousing services.

About Kuehne+Nagel

With approximately 79,000 employees at almost 1,300 sites in close to 100 countries, the Kuehne+Nagel Group is one of the world's leading logistics providers. Headquartered in Switzerland, Kuehne+Nagel is listed in the Swiss blue-chip stock market index, the SMI. The Group is the global number one in air and sea logistics and has strong market positions in road and contract logistics.

Kuehne+Nagel is the logistics partner of choice for 400,000 customers worldwide. Using its global network, logistics expertise and data-based insights, the Group provides end-to-end supply chain solutions for global companies and industries. As a member of the Science Based Target Initiative (SBTi), Kuehne+Nagel is committed to sustainable logistics by reducing its own environmental footprint and by supporting its customers with low-carbon logistics solutions.
