Kuehne+Nagel Ecuador marks 30 years with new logistics centre in Quito

- **Combining operations and offices in one strategic location**
- **Streamlining processes and enhancing internal coordination**

Quito / EC, July 21, 2025 – Kuehne+Nagel celebrates a significant milestone in its presence in Ecuador with the opening of a state-of-the-art logistics centre in Tababela, Quito. The new facility includes 2,280 sqm of refrigerated warehouses, 6,445 sqm of manoeuvring yard, 25 docks and 795 sqm of office space.

Since its founding in Quito in 1995, with just five employees dedicated to air logistics, Kuehne+Nagel Ecuador has experienced continuous growth. The acquisition of Master Transport in 2013 and Panatlantic in 2018 further strengthened its leadership in the perishable sector. Today, thanks to its development and expanded service offerings, the company ranks as one of the most comprehensive and versatile organisations in the country for international trade and supply chain management.

Diether Bohn, Managing Director for Ecuador, Colombia, Peru and Venezuela, says: "With this step, we reaffirm our commitment to the economic development of Ecuadorian trade and industry as a whole, by relying on the most advanced logistics solutions. Furthermore, integrating all Quito teams into a single location will foster stronger synergies, increase process agility and deliver a superior experience for both customer and employees."

Currently, the company's primary solutions in the country include general and perishables air logistics services, cross-docking, airport storage and delivery, full container and consolidated sea freight as well as customs management. Additionally, Kuehne+Nagel offers decarbonisation options for these services.

"Over the past 30 years, we have transported thousands of tons of Ecuadorian products worldwide, and today we take the next step. This new facility not only marks an upgrade in infrastructure but also brings our vision to life, to become the most trusted supply chain partner supporting a sustainable future," says Mónica Jimenez, Country Manager, Ecuador.
