Kuehne+Nagel India

Kuehne+Nagel accelerates India growth with 100,000 sqm fulfilment centre expansion

- **Strategic expansion across tier-1 to tier-3 cities, growing fulfilment centre capacity to nearly 500,000 sqm**
- **Achieving a 75% surge in peak order handling through advanced automation and optimised space**
- **Generating over 1,500 new jobs across India**

Gurugram / IN, October 16, 2025 – Kuehne+Nagel is investing in five new fulfilment centres, adding 100,000 sqm of capacity, located in Gurgaon, Kolkata, Nagpur, Mumbai and Rajpura. This expansion increased the company's total fulfilment centre footprint in India to nearly 500,000 sqm and will generate more than 1,500 new jobs nationwide, contributing to the growth of the local economy.

India is projected to become the world's third-largest economy by 2030, with strong growth across high-tech, automotive, consumer goods, and healthcare sectors. Rising demand in these industries is driving the need for scalable, high-performance logistics infrastructure.

The new fulfilment centres are equipped with automation technologies, including telescopic conveyors and high-performance sorting systems, enabling a 75% increase in peak order handling capacity.

The locations span tier-1 cities Mumbai and Kolkata, tier-2 hubs Gurgaon and Nagpur, and Rajpura in tier-3 — aligned with India's multi-city industrial growth. Gurgaon and Nagpur continue to evolve as growth hubs for multiple industries, while Rajpura, is gaining traction in manufacturing and distribution.

"India is a key growth market for Kuehne+Nagel," said Damian Raczynski, Senior Vice President, Contract Logistics, Kuehne+Nagel Asia Pacific. "We invest where our customers are — and this expansion strengthens our ability to serve high-demand sectors like consumer and healthcare with speed, reliability, and flexibility."
