

PRESS INFOKuehne+Nagel Group**Kuehne+Nagel expands spare parts logistics for the automotive industry**

Bremen/DE, April 25th, 2024 – As one of the leading logistics providers for the automotive industry, Kuehne+Nagel now manages a 170,000m² spare parts fulfilment and delivery centre in Wallersdorf, Germany.

From this location, spare parts are supplied to BMW markets worldwide. Here, Kuehne+Nagel is responsible for the physical receipt of goods, pre-packaging, the management of packaging material and empties as well as the loading of goods onto shuttles for dispatch to all BMW parts distribution locations.

At the Dingolfing and Bruckberg sites, Kuehne+Nagel now also ensures the logistical handling of BMW spare parts for worldwide dispatch: regional distribution centres around the world are supplied with parts from here, which in turn ensure delivery to the local BMW dealerships in the individual countries.

Kuehne+Nagel thus supports the BMW Group in spare parts logistics with around 1,700 employees at various locations worldwide.

"We are pleased to take over the extended tasks in spare parts logistics for the BMW Group," says Tobias Jerschke, National Manager Kuehne+Nagel Germany. "We support our customer in being more efficient in the supply of spare parts and being able to react more flexibly. The decisive factor here is not only our expertise in this area but also the growing trust between the two teams."

About Kuehne+Nagel

With approximately 81,000 employees at almost 1,300 sites in close to 100 countries, the Kuehne+Nagel Group is one of the world's leading logistics providers. Headquartered in Switzerland, Kuehne+Nagel is listed in the Swiss blue-chip stock market index, the SMI. The Group is the global number one in air and sea logistics and has strong market positions in road and contract logistics.

Kuehne+Nagel is the logistics partner of choice for 400,000 customers worldwide. Using its global network, logistics expertise and data-based insights, the Group provides end-to-end supply chain solutions for global companies and industries. As a member of the Science Based Target Initiative (SBTi), Kuehne+Nagel is committed to sustainable logistics by reducing its own environmental footprint and by supporting its customers with low-carbon logistics solutions.
