Kuehne+Nagel Road Logistics

Kuehne+Nagel introduces new direct line hauls between Türkiye and Europe within its groupage network

- **Multiple weekly departures and shorter lead times**
- **Shipment visibility and easy online booking via myKN**

Istanbul / TR, April 3, 2025 – Kuehne+Nagel enhances the connectivity between Europe and Türkiye within its groupage network to reduce lead times. Türkiye is an important trade partner for the EU, and their industries are becoming more connected. This nearshoring trend increases the demand for reliable road logistics.

As a response, Kuehne+Nagel has introduced four new direct line hauls from Türkiye to Europe, with multiple departures per week, covering most European countries. It leverages cross-docking hubs in Austria, Germany and France for optimal connectivity and efficiency, and competitive lead times.

Ali Bener, Head of Road Logistics for the Middle East and Africa, states: "As trade relations between Türkiye and Europe grow, businesses need reliable and fast road freight services. Our new setup with additional line hauls, improved lead times and pan-European coverage will particularly benefit customers with flows from Türkiye to multiple European destinations.

Kuehne+Nagel can be their single logistics provider managing and optimising all these flows. On top, customers enjoy shipment visibility and easy online booking through our digital self-service platform, myKN, which is included as a standard part of our service."

About Kuehne+Nagel

With approximately 80,000 employees at almost 1,300 sites in close to 100 countries, the Kuehne+Nagel Group is one of the world's leading logistics providers. Headquartered in Switzerland, Kuehne+Nagel is listed in the Swiss blue-chip stock market index, the SMI.
